### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 22,26-29,33-38,42-47,51-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dougherty (5539624) in view Friend et al (5247190) or Klein (6085698) or Cozad (4644895) . Dougherty shows an active means 43 for lighting a refueling hose to make it more visible, noting that the prior art used reflective means and a flood light. Klein teaches that an active means of electro luminescent means can be used to light of devices that need to be made more visible and the prior art did it by passive reflective means. Friend et al in col 12, lines 50-62 teaches that an electro luminescent means can be made flexible and used on flexible devices to make them more visible. Cozad in col 8 lines 12-18 teaches that the means to make the parts of the aircraft in a refueling environment can be made out of reflective material or active lights such as electro luminescent means.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the hose of Dougherty with electro luminescent means which is well known means for illumination of devices as shown by Friend et al (5247190) or Klein (6085698) or Cozad (4644895) for the reasons discussed above.

Art Unit: 3644

1. Claims 23,30,39,48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dougherty in view of Friend or Klein or Cozad as applied in paragraph above, and further in view of Vecht et al (4140937).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the electro luminescent means of the above combination from a electro luminescent paint means as taught by Vecht et al since it is merely a known way of applying electro luminescent means.

Applicant's remarks have been considered but are not deemed persuasive in view of the reasons discussed in the prior art for the use of electro luminescent means as well known for illuminating objects in place of reflective means which is what Dougherty was doing with a different active lighting means.

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Galen L Barefoot whose telephone number is 571-272-6898.
